**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Schuster et al. (US 6,351,524, hereinafter "Schuster").

Regarding claims 20-22, Schuster discloses an internode module (RAS 70) comprising:

a service address code (user places call to RAS 70 by dialing; Figure 4, step 302; col. 8, lines 20-35);

an authenticator (first decoder 258 performs user authentication; col. 7, lines 27-40); and

an email waiting indication request (second decoder 262 determines whether an event has occurred in the user account; col. 7, lines 48-64),

wherein the internode module is located at a platform (RAS 70 is a standalone platform accessible from telephone 94 through PSTN 60 across communication line 62; Figure 1; col. 4, lines 21-23).

***Allowable Subject Matter***

3. Claims 9-19 are allowed.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Berger et al., Halahmi et al., Hitzeman et al., Paarsmarket et al., show other methods of receiving email information at a telephone device.
